

Project Estimation

Tasks	Hours	Cost (\$) 10\$*1hr
Buy courses	5	50
Internal training	20	200
Install all dependencies	10	100
Develop backend	100	1000
Develop frontend	100	1000
Connect Application with Maps	50	500
Finish front end design using Ui/ Ux	100	1000
categories the companies	10	100
Upload app on different stores for different OS	60	600
	455 hrs.	4550 \$

Tools	Suppliers	Cost \$
Courses	Udacity	200
Mobiles	Mobile store	50000

Total cost	54750 \$
------------	----------

Assumptions:

- If training failed, we have to hire skilled members which is company responsibility.
- In the event of a technical failure of the devices, it is the responsibility of the engineer and then the company.
